1					
2	EMBO Cancer YIPs 2010				
3	Split – Croatia				
4					
5	Program				
6	Jun 14, 2010				
7					
8	4:00pm		Welcome		
9					
10	4:05pm		Cellular senescence in ageing and cancer	<i>Fabrizio d'Adda di Gagagna</i>	
11					
12	4:35pm		Regulating the Ink4a/ARf locus at different levels	<i>Jesus Gil</i>	
13					
14	5:05pm		Understanding the origins of aberrant DNA methylation in cancer	<i>Irina Stancheva</i>	
15					
16	5:35pm		Coffee break		
17					
18	6:05pm		Epigenetic control of early mouse development	<i>Antoine Peters</i>	
19					
20	6:35pm		Mechanisms of non-canonical Wnt signaling involved in leukemia	<i>Vita Bryja</i>	
21					
22	7:05pm		$\beta$ -catenin in drug resistance & establishment of MLL leukemic stem cells	<i>Eric C. W. So</i>	
23					
24	7:35pm		Dinner		
25					

26	Around 9:00pm	Drink and gathering		
27				
28				
29	<i>Jun 15, 2010</i>			
30				
31	7:30 – 8:30am	Breakfast		
32				
33	8:30am	A compound library screen to identify modifiers of a Notch and AKT activation induced eye-tumor phenotype in Drosophila.	<i>Jozsef Mihaly</i>	
34				
35	9:00am	JNKc/Jun signaling in stem cell and cancer	<i>Axel Behrens</i>	
36				
37	9:30am	Semaphorin3E-PlexinD1 signaling as a major driver of metastatic spreading in human cancer	Luca Tamagnone	
38				
39	10:00am	Coffee break		
40				
41	10:30am	Autophagy regulation and cancer	<i>Devrim Gozuacik</i>	
42				
43	11:00am	Resistance is useless – targeting MDR cancer	<i>Gergely Szakacs</i>	
44				
45	11:30am	General Discussion		
46				
47	12:00 noon	Boat trip and lunch on board		
48				
49	8:00pm	Dinner		
50				
51				
52				
53
